

PRESENTING THE EUROPEAN FASHION CAMPUS

Skills  Smart
TCLF 2030

Co-funded by the
Erasmus+ Programme
of the European Union

Spin360
European Fashion Campus
January 12th, 2022

European Fashion Campus: all in one place

- Internet is full of information about the TCLF industries
- This information (Big Data) is a combination of unstructured, semi-structured or structured materials
- 5 characteristics of Big Data are: Volume, Velocity, Variety, Veracity and Value
- TCLF information is available even if it is often difficult to find “*what you are really looking for*”

European Fashion Campus: what is mapped

- The European Fashion Campus (website) collects in one place all the relevant information on education and training in the TCLF industries based on S4TCLF project outcomes as well as contributions from external VET providers
- Using filters, users can easily find information according to specific needs, by browsing into a database of mapped information with a fancy interface

European Fashion Campus: next steps

- Increase the database of TCLF «Big Data» drawing from information from stakeholders in the industries
- Disseminate the European Fashion Campus website
- Using the EFC as a “virtual square” having the Demand and Offer of skills and information into the same place

The project
The EFC was born under the EU Blueprint project "Skills4Smart TCLF Industries 2030", covering the Textile, Clothing, Leather and Footwear industries

The Campus: how does it work?
The EFC is a hub for the whole Textile, Clothing, Leather and Footwear (TCLF) industries in terms of courses, information, best practices and knowledge

Browse into the campus
By browsing into the campus, you can get customized experience that will help you finding what you are specifically looking for

Partnership
Twenty-one partners from nine European countries in the Textile, Clothing, Leather and Footwear (TCLF) industries
